PROFESSIONAL SUMMARY

CRM and Business Software Developer with 1+ years experience designing and building production CRM systems that automate sales, billing, operations & reporting. PHP / MySQL / Laravel. Production systems in daily use, all projects open on GitHub. Expertise in custom MVC architecture, RBAC with permission matrices, CSRF protection, audit logging, and backend infrastructure visualization.

CORE COMPETENCIES

- CRM Development: Custom PHP/MySQL CRM systems, Perfex CRM, Gravity CRM customization
- Backend Engineering: PHP 8, MySQL/MariaDB, Laravel, REST APIs, Database design & optimization
- Workflow Automation: WhatsApp Business API integration, cron jobs, scheduled jobs, email automation
- Security: CSRF protection, throttling, RBAC, audit logging, data hardening
- Database: MySQL/MariaDB, prepared statements, indexes for reporting queries, export pipelines
- Deployment: Standard shared hosting, Docker, VPS — zero platform lock-in, data portability
- Staff Training: Picture-based Urdu/English guides, non-technical adoption in days
- System Architecture: Custom MVC, event-driven modules, permission matrices, configurability

PORTFOLIO HIGHLIGHTS

- Asif Snooker Club CRM — Live table management, automatic billing with peak/night rates, payment tracking (cash/JazzCash/card), WhatsApp reminders, daily/weekly reports. 52 members, 229 sessions, 3 live tables.
- Gravity CRM — Event-driven professional-services CRM with automation hooks, AI orchestration for summarization and triage, RBAC with scoped permissions.
- Syed Professional CRM Platform — Installer-based CRM that non-developers can own. Runs on standard shared hosting with first-run installer and server re-configure screen.

CERTIFICATIONS

- HubSpot CRM Certification — Inbound Sales & Marketing (Completed)
- Google Analytics Individual Qualification
- Microsoft Azure Fundamentals (AZ-900) — Cloud basics

TECHNICAL SKILLS

Languages: PHP 8, SQL, HTML5, CSS3, JavaScript, jQuery

Frameworks: Laravel, CodeIgniter, vanilla JS, Alpine.js

Tools: Docker, Linux Composer, Git, Postman, VS Code, cPanel/WHM

Methods: Agile, Scrum, RBAC, CSRF protection, Audit logging, Picture-based training

Deployment: Shared hosting, VPS, Docker, tunnel-friendly URLs

EXPERIENCE

CRM & Business Software Developer | Freelance & Independent Builds | 2024 – Present

- Design and build custom CRM systems in PHP and MySQL for small businesses and professional firms
- Develop and customize Perfex CRM and proprietary Gravity CRM for client workflows
- Implement lead management, invoicing, workflows, automations and reporting dashboards
- Optimize MySQL queries and harden applications (CSRF, throttling, RBAC, audit logs)
- Train non-technical staff with picture-based guides in Urdu/English — adoption in days
- Deploy on standard shared hosting, Docker, or VPS — zero platform dependency
- Publish every project open-source so clients and developers can inspect and extend it

INDEPENDENT BUILDS | Ongoing | 2024 – Present

- End-to-end custom CRM builds — from requirements to deployment and staff training
- Train staff in Urdu with picture-based guides and provide ongoing production support
- Publish every project open-source so clients and developers can inspect and extend it
