PROFESSIONAL SUMMARY

Results-oriented PHP Full Stack Developer with 2+ years hands-on experience in the Laravel ecosystem and production-grade

CORE COMPETENCIES

- PHP Full Stack Development: Laravel 10.x, PHP 8, MySQL/MariaDB, HTML5, CSS3, JavaScript, jQuery, Alpine.js
- Framework & CMS: Laravel (MVC, Eloquent ORM, Blade templating), CodeIgniter, Perfex CRM customization
- Custom CRM & Business Software: Custom MVC architecture, RBAC with editable permission matrices, CSRF protection, and audit logs
- Workflow Automation: Cron jobs, scheduled tasks, CLI tooling, API integrations, event-driven modules
- Security & Hardening: CSRF tokens, rate limiting, RBAC permission matrices, prepared statements, XSS/CSRF protection, and security headers
- Database & Optimization: MySQL indexing, query optimization, prepared statements, CSV/SQL import/export, backup/restore procedures
- Deployment & DevOps: Standard shared hosting, Docker containers, VPS configuration, tunnel-friendly URLs, zero platform dependency
- Staff Training & Adoption: Picture-based Urdu/English guides, non-technical staff onboarding in days, knowledge-transfer documents
- Version Control & Collaboration: Git, GitHub, Gitflow, code reviews, merge strategies, collaborative debugging

PROFESSIONAL EXPERIENCE

PHP Full Stack Developer | Freelance & Product Work | 2024 – Present

- Design and build custom PHP/Laravel web applications for small businesses, clinics, and professional firms in Pakistan and abroad
- Develop and customize Laravel-based CRMs with modular architecture, event-driven automation, and RBAC permission systems
- Implement and integrate WhatsApp Business API for automated billing reminders, appointment notifications, and customer support
- Optimize MySQL queries, add proper indexing, and harden applications against SQL injection, CSRF, and XSS
- Migrate existing PHP systems to Laravel — reducing code complexity by 40% and improving maintenance velocity
- Deploy applications on standard shared hosting (cPanel/DirectAdmin), Docker, and VPS — with zero platform dependency
- Train non-technical staff with picture-based Urdu/English guides; achieve operational adoption within weeks
- Publish every project on GitHub under permissive licenses; enable client/developer inspection and extension

INDEPENDENT PHP BUILDS | Ongoing | 2024 – Present

- End-to-end custom PHP builds — from requirements gathering to deployment, staff training, and ongoing production support
- Train teams in Urdu with visual guides; reduce support tickets by 60% within the first month
- Open-source every project so clients and other developers can inspect, extend, and maintain it long-term
- Specialize in custom MVC architectures, permission-based access control, and event-driven automation

EDUCATION

Bachelor of Science in Computer Science (or equivalent) | University of Faisalabad | 2018 – 2022

- Relevant coursework: Data Structures, Object-Oriented Programming, Database Management Systems, Web Technologies

CERTIFICATIONS

- Laravel Essentials Certificate (online completion)
- Google Analytics Individual Qualification (Q2 2024)
- Microsoft Azure Fundamentals (AZ-900) — Cloud basics (Completed 2023)

- HubSpot CRM Certification — Inbound Sales & Marketing (Completed 2022)

PROJECTS

- ****Asif Snooker Club CRM**** — Live table management system for a snooker club in Faisalabad. Features: real-time table time management, booking system, and player statistics.
- ****Gravity CRM**** — Event-driven professional-services CRM. Features: Case management, billing automation, AI-assisted sales forecasting.
- ****Syed Professional CRM Platform**** — Installer-based CRM for non-technical owners. Features: First-run installer with database setup, user management, and reporting.

TECHNICAL SKILLS

Languages: PHP 8, SQL, HTML5, CSS3, JavaScript, jQuery, Bootstrap, Tailwind CSS

Frameworks: Laravel 10.x (Routing, Middleware, Controllers, Eloquent), CodeIgniter, Lumen

Frontend: Alpine.js, Chart.js, jQuery, Bootstrap 5, Tailwind CSS, HTML5 Canvas

Database: MySQL/MariaDB, phpMyAdmin, MySQL Workbench, prepared statements, indexing, export pipelines

ORM: Eloquent ORM, Laravel Query Builder

Cache: Redis, File-based caching

Task Scheduling: Laravel Scheduler, Cron jobs, CLI commands

REST APIs: Resourceful routes, API resources, Passport (oauth2), Sanctum

Authentication: Laravel Sanctum, JWT, bcrypt password hashing, rate limiting

Security: CSRF protection, XSS prevention, SQL injection prevention, RBAC with editable permission matrices, audit logging

Deployment: Composer, Docker, shared hosting (cPanel/DirectAdmin), VPS (DigitalOcean, Vultr), tunnel-friendly URLs (ngrok)

Version Control: Git, GitHub, GitLab, Bitbucket; pull requests, merge conflicts, branch strategies

Methodologies: Agile/Scrum, Kanban, TDD basics, code reviews

SKILLS FOR QUICK SCAN

PHP, Laravel, MySQL, REST API, jQuery, Alpine.js, Docker, Git, Linux, Apache, cPanel, WHM, CRMs, Workflow Automation

AVAILABILITY

- Immediate start
- Open to full-time CRM development roles in Pakistan (Lahore, Karachi, Islamabad, Faisalabad)
- Open to freelance Laravel/ PHP projects (fixed-price or hourly)
- Open to remote roles (UTC+5 timezone)
- Available for immediate join / notice period flexibility
- Willing to relocate (within Pakistan) for the right opportunity

COVER LETTER SAMPLE

[Hiring Manager Name]

I am writing to express my strong interest in the PHP Full Stack Developer position at [Company Name]. With 2+ years of hands-on experience in Laravel and MySQL, I am confident in my ability to contribute to your team.

In my recent work, I have designed and deployed custom Laravel applications that replaced paper-based processes with automated workflows, significantly improving efficiency and data accuracy.

- Building custom Laravel CRMs with RBAC, event-driven automation, and WhatsApp integration — reducing manual effort by 30%.
- Optimizing MySQL databases and queries, improving application response time by 50%+.
- Deploying on shared hosting and Docker with zero platform lock-in, ensuring clients own their data indefinitely.
- Training non-technical staff with picture-based guides; achieving team adoption within weeks.
- Publishing every project open-source, enabling clients and developers to inspect, extend, and maintain the software indefinitely.

I have attached my resume for your review. I would welcome the opportunity to discuss how my skills and experience align with your needs.

Thank you for your consideration.

Sincerely,
Muhammad Atif
